SYSTEM CERTIFICATION bmtrada ISO 9001 CERTIFICATION

Quality Policy Statement

Our first priority is the delivery of quality products and provision of service excellence that exceed customer expectations. We supply a broad range of high quality products supported by outstanding customer service.

To achieve this, we are committed to the implementation and maintenance of a Quality Management System in accordance with ISO 9001, specific customer requirements, and providing safe and healthy working conditions. We are further committed to train our staff where needed.

We are committed to continual improvement, supported by a Quality Management System, that maintains measurable Quality objectives at all levels in the organisation, including:

- Customer satisfaction
- Compliance with customer specifications and requirements
- Process Control
- Efficiency and effectiveness of all processes
- Defect prevention
- Employee satisfaction

These objectives can only be achieved through the active involvement and commitment of all stakeholders. Management undertakes to ensure that this Quality Policy is communicated, understood, implemented and maintained throughout its organisation, and reviewed for continuing suitability.

Our Business Philosophy

Newton and Dennis Boardman formed this family owned and run business back in September 1969. From a small family concern producing 25 products and variants the company has grown into a modern day business producing over 1600 various products and variants.

The company operates out of 2 factories, one in Stutterheim, Eastern Cape and the other in Ladysmith, Kwa-Zulu Natal. The company is seen as a market leader with certain products, especially in their home “markets”.

We are continuously striving to improve the quality and reduce the costs of our products through new formulations and improved manufacturing and packaging processes. Price has always played an important role and it is our company policy to price its products as competitively as possible. We are always striving to supply you with The Best Value For Your Rand!

“There is hardly anything in the world that some man cannot make a little worse and sell a little cheaper, and the people who consider price only, are this man’s lawful prey”.

- Ruskin 19th Century.

Product Development

The Companies within the group believe in the application of sound business principles for management and the commitment of loyal and dedicated people, to strive for provision of the ultimate in service to its customers. The goals of the group are:

THE CONSUMERS:
To sell attractively presented products of consistently superior quality at fair and competitive prices. To continuously strive to improve these products by innovation and the use of modern technology.

OUR CUSTOMERS:
To strive to identify the needs and wants of our customers, to provide them with excellent service and to have them as valued friends.

OUR PEOPLE:
To treat our staff courteously and fairly and to recognize the dignity and aspirations of all.

OUR SHAREHOLDERS:
To be mindful of the fact that it is essential for the company to make realistic profits to allow growth, to the ultimate benefit of all.

OUR COMMUNITY:
To act responsibly and supportively as members of the communities in which the companies are situated.
